Dr. Lewis To Speak On Dental Program

Dr. Stephen J. Lewis

Dr. Stephen J. Lewis of Washington, D. C., will speak on "The Dental Profession in Public Health Movements" at the mass meeting to be held at the auditorium of the New Douglass High School, Thursday, April 8, 8 p. m.

Professor Mason Hawkins, principal of the Douglass High School, will talk on "Public Schools and the Health Movement." Other speakers will be Professor Francis M. Wood, supervisor of colored schools; Dr. C. Hampson Jones, Commissioner of Health; and Dr. Isaac H. Young, president, Maryland Dental Society.

Musical selections will be rendered by the Morgan College Glee Club and a solo by Mrs. B. F. Browne.

DR. WISEMAN RE-ELECTED PRESIDENT

By Kelly Miller, Jr.

Dr. Wiseman, re-elected president of the Robert T. Freeman Dental Society.

At the last meeting of the Robert T. Freeman, Dental Society of the District of Columbia, Saturday evening, at Harrison's Cafe, Dr. M. D. Wiseman, instructor in the College of Dentistry, Howard University was re-elected president of the society. Other officers elected were Dr. W. O. Clayton, vice president; Dr. S. D. Savoy, secretary; Dr. F. B. Barrier, sergeant-at-arms and Dr. Robert Wilson, chaplain.

The main business of the meeting was the revision of the constitution. Dr. Merrin Curtis, chairman of the social committee was in charge of arrangements of the banquet following the meeting.

Students Present Papers

Members of the junior class of the College of Medicine, under the direction of Dr. L. K. Ecker, assistant professor of Medicine, has been presenting papers on various medical subjects to the other members of the class during the week. Papers on malaria, typhoid and tuberculosis were presented this week. The papers were highly interesting, instructive and of great benefit to the members of the class.

Class A

University of California, Dental Department San Francisco, Calif.
University of Southern California, College of Dentistry, Los Angeles, Calif.
Atlanta-Southern Dental College, Atlanta, Ga.
Chicago College of Dental Surgery, Dental Department of Loyola University, Chicago, Ill
Northwestern University Dental School, Chicago, Ill.
University of Illinois, College of Dentistry, Chicago, Ill.
State University of Iowa, College of Dentistry Iowa City, Iowa.
University of Louisville, College of Dentistry, Louisville, Ky.
Loyola University, School of Dentistry, New Orleans, La.
Harvard University Dental School, Boston, Mass.
Tufts College, Dental School, Boston, Mass.
University of Michigan, College of Dental Surgery, Ann Arbor, Mich.
University of Minnesota, College of Dentistry, Minneapolis, Minn.
St. Louis University School of Dentistry, St. Louis, Mo.
Washington University School of Dentistry, St. Louis, Mo.
Creighton University, College of Dentistry, Omaha, Nebraska.
University of Buffalo, College of Dentistry, Buffalo, N.Y.
Ohio State University, College of Dentistry, Columbus, Ohio.
Western Reserve University Dental School, Cleveland, Ohio.
North Pacific College of Oregon, Portland, Oregon.
Thomas W. Evans Museum and Dental Institute, School of Dentistry, University of Pennsylvania, Philadelphia, Pa.
University of Pittsburg, School of Dentistry, Pittsburg, Pa.
University of Tennessee, College of Dentistry, Memphis, Tenn.
Baylor University, College of Dentistry, Dallas, Texas.
Medical School of Virginia, School of Dentistry, Richmond, Va.
Marquette University, College of Dentistry, Milwaukee, Wis.

Class B.

College of Physicians and Surgeons of San Francisco, San Francisco, Calif.
University of Denver, School of Dentistry, Denver, Colo., (Formerly Colorado College of Dental Surgery.)
Georgetown University, Dental Department, Washington, D.C.
Howard University Dental College, Washington, D.C.
Indiana University School of Dentistry, Indianapolis, Indiana. (Formerly Indiana Dental College)
Tulane University of Louisiana, School of Dentistry, New Orleans, La.
Baltimore College of Dental Surgery, Dental School, University of Maryland, Baltimore, Md. (Baltimore College of Dental Surgery was merged with it on June 15, 1923)
Kansas City-Western Dental College, Kansas City, Mo.
University of Nebraska, College of Dentistry, Linclon, Neb.
Columbia University School of Dentistry, New York, N.Y. (Incorporated with the College of Dental and Oral Surgery of New York, July 1, 1923)
New York University, College of Dentistry, New York, N.Y. (New York College of Dentistry was merged with it June 29, 1925)
Temple University Dental School, Philadelphia, Pa. (Formerly Philadelphia Dental College)
Meharry Dental College, Nashville, Tenn.

Class C

Cincinnati College of Dental Surgery, Cincinnati, Ohio
Texas Dental College, Houston, Texas

Operating Stool

An operating stool should be in the office of every practitioner. By its use a dentist is relieved of considerable muscle strain due to stooping and bending, and will go home at night feeling much more rested, and with pep enough left to want to take some outdoor exercise. I would not part with mine for anything. After once getting the habit, it has become as necessary as a mouth mirror. If the chair is properly placed in relation to the cabinet, everything needed can be reached from the stool.—Dental Supplement.

U. S. COLORED DOCTORS WILL TOUR EUROPE

NEW YORK, Nov. 3 — Five hundred colored physicians and surgeons from the United States are to visit Europe next Summer to study hosptial methods in England and the continent. The doctors who will be accompanied by relatives numbering about 200, will visit Great Britain, France, Belgium, Holland, Germany and Italy, from May until September.

MANY DOCTORS MEET IN MACON LAST WEEK

The State Medcial Association met last week in Macon. The attendance was large. The following local doctors attended: Doctors D. V. Jamerson, J. H. Eberhardt, Doctors Lafayette, Geo. H. Smith, C. B. Eason, H. M. Collier, S. H. Frasier, E. J Smith, F. S. Belcher.

Successful Meeting of the Georgia Medical Association

Nearly Two Hundred Doctors Meet in Macon.

By Dr. Whittier H. Wright, Waycross, Ga.

The Georgia State Medical Association of Negro Physicians, Dentists and Pharmacists met in Macon, May 11-12. The sessions were without a doubt the most successful in the history of the organization. More than one hundred doctors were in attendance and a large number of visitors. The Macon Academy of Medicine spared no pains nor expense in making the meeting one long to be remembered. Dr. C. Waymond Reeves, the General Secretary prepared an excellent program. The public meetings were well attended. The addresses by Dr. Ralph Stewart, U. S. Health Service, Washington, D. C., on "Venereal Control"; Dr. S. M. Davies, Rome, Ga., on "How to Live a Hundred Years", and other experts were brimfull of information. Prof. D. H. Turpin, Dean of the Dental Department, Meharry Dental College, Nashville, Tenn., also addressed the organization.

Among those who had papers were: Dr. J. R. Hamilton, Atlanta, "The Relationship Which Should Exist Between the Dentist and the Physician"; "Pharmacy," by Dr. C. A. Eigner; "Chlorosis of Adolescence," Dr. Georgia R. Dwelle, Atlanta; "Ovarian Dysfunction," Dr. W. Neal Frayser, Macon; "Puerperal Eclampsia," Dr. W. A. Davis, Macon; "Prevalence and Prevention of Cardiac Diseases," Dr. J. H. Griffin, Bainbridge; "Malarial Fever—Diagnosis and Treatment," Dr. S. S. Johnson, Augusta; "Cancer," Dr. G. N. Woodward, Fort Valley; "Acute Surgical Abdomen," Dr. R. H. Brooks, Rome; "A Case of Hemmorrhoid I Once Knew," Dr. R. N. Jackson, Brunswick ;"The Relation of the Physician to the Community," Dr. W. H. Wright, Waycross; "X-Ray," Dr. H. M. Collier, Savannah.

The outstanding addresses at the general session were those delivered by the presidents of the various sections, and that of Dr. H. M. Holmes, Atlanta, President of the organization. The address of Dr. Holmes was really a gem. He selected as a subject "Success and Happiness," and poured out his real soul to the men and women present. He urged the members to "First be sure of your profession, then be true as steel to it, live for it, think of it, plan for it, work for it, throw in your mind, might, strength and heart into your actions for, and success will crown you as her favored child." He advised each one to study his profession and keep up with the times." Inject personality, originality and business in your profession. Get out of the rut," cried the speaker in unmistakable terms," men must learn to labor and to wait, if they would succeed Brother practitioners engage in your profession only. A constant hammering on one nail will generally drive it home at last. When a man's undivided attention is centered on one object, his mind will constantly be suggesting improvements of value, which would escape him if his brains were occupied by a dozen different subjects at once." Dr. M. L. Walton, Thomasville President of the Dental Section delivered a very inspiring and impressive address. His speech was practical from every standpoint He stressed the advantage of thorough organization. Said the speaker: "In union there is strength, progressive results follow constructive, concerted action." He plead to the men to allow efficiency play the most important part of their daily activities. "We need money, but we owe it to our clientele to be as thoroughly prepared as it is possible to be." His closing was a masterpiece, saying: "Let every Negro professional man in Georgia awake to his full responsibilities, and stand as a benefactor of humanity, and may we be worthy of our precious heritage."

Dr. S. Neal, Atlanta, President of the Pharmaceutical Section made an appeal for price standardization of drugs, and bitterly denounced the "drugless drug store." He spoke beautifully of the relations which should exist between the druggist and the physician. He also spoke along the lines of cooperative buying and advertising, and urged the importance of clealiness.

The following officers were elected for the ensuing year: H. M. Holmes, M.D., Atlanta, President; Wm. Neal Frayser, M.D., Macon, Vice-President; J. W. Jamerson, D.D.S., Savannah, Second Vice-President; C. Waymond Reeves, M.D., C.M., Atlanta, General Secretary; R. R. Hawes, D.D.S., Macon, Recording Secretary; Marcus B. Hutto, D.D.S., Bainbridge, General Treasurer; J. H. Hamilton, D.D.S., Atlanta, President Dental Section; Samuel Neal, Ph.G., Atlanta, President Pharmaceutical Section. The next meeting will be held in May at Waycross, Ga.

Record Meeting of the Georgia State Medical Association

Nearly Two Hundred Doctors Gathered in Macon

The Georgia State Medical Association of Negro Physicians, Dentists and Pharmacists met in Macon, May 11-12. The sessions were without doubt the most successful in the history of the organization. More than one hundred doctors were in attendance, and a large number of visitors. The Macon Academy of Medicine spared no pains nor expense in making the meeting one long to be remembered. Dr. C. Waymond Reeves, the general secretary prepared an excellent program. The public meetings were well attended. The addresses by Dr. Ralph Stewart, U. S. Health Service, Washington, D. C. on "Venereal Control"; Dr. S. M. Davies, Rome, Ga., on "How to live a Hundred Years"; and other experts were brimfull of information. Prof. D. H. Turpin, dean of the dental department, Meharry Dental College,, also addressed the organization.

Among those who had papers were Dr. J. R. Hamilton, Atlanta, "The Relationship Which Should Exist Between the Dentist and the Physician; "Pharmacy" Dr. C. A. Eigner; Chlorosis of Adolescence" Dr. George H. Dwelle Atlanta; "Ovarion Dysfunction", Dr. W. Neal Frasier, Macon; "Puerperal Eclampsia", Dr. D. A. Davis, Macon; "Prevalence and Prevention of Cardiac Diseases" Dr. J. H. Griffin, Bainbridge; "Malarial Fever Diagnosis and Treatment" Dr. S. S. Johnson, Augusta; "Cancer" Dr. G. N. Woodward, Fort Valley; "Acute Surgical Abdomen" Dr. R. H. Brooks, Rome; "A case of Hemmorrhoid I Once Knew" Dr. R. N. Jackson, Brunswick; "The Relation of the Physician to the Community" Dr. W. H. Wright, Waycross; "X-Ray" Dr. H. M. Collier, Savannah.

The outstanding address at the general session were those delivered by the presidents of the various sections of the various sections, and that of Dr. H. M. Holmes, Atlanta, president of the organization. The address of Dr. Holmes was really a gem. He selected as a subject "Success and Happiness" and poured out his real soul to the men and women present. He urged the mmebers of "First be suce of your profession, then be true as steel to it, live for it, think for it, plan for it, work for it, throw in your mind, might strength and heart into your action for it and success will crown you as her favored child." He advised each one to study his profession and keep up with the times. Inject personality, originality and business in your profession. Get out of the rut, cried the speakers in unmstakable terms," "men must learn to labor and to wait, if they would succeed. Brother practitioner, engage in your profession only. A constant hammering on one nail will generally drive it home at last. When a man's undivided attention is centered on one object, his mind will constantly be suggesting improvements of value, which would escape him if his brains were occupied by a dozen different subjects at once." Dr. M. L. Walton, Thomasville, president of the Dental Section, delivered a very inspiring and impressive address. His speech was practical from every standpoint. He stressed the advantage of thorough organization. Said the speaker. "In Union there is strength, progressive results follow constructive, concerted acton" He pleaded to the men to allow effcency to play the most mportant part of their daily activities. "We need money, but we owe it to our clientile to be as thoroughly prepared as it is possible to be". His closing was a masterpiece, saying, "Let every Negro profesional man in Georgia awake to his full responsibilities, and stand as a benefactor of humanity, and may we be worthy of our precious herHage."

Dr. S. Neal, Atlanta, president of the Pharmaceutical Section, made an appeal for price standardization of drugs, and bitterly denounced the "drugless" drugstore. He spoke beautifully of the relations which should exst between the druggist and the physician. He also spoke along the

lines of co-operative buying and advertising, and urged the importance of cleanliness..

The followng were elected for the ensuing year: H. M. Holmes, M. B., Atlanta, president; Wm. Neal Frayser, M. D., Macon, vice president; J. W. Jamerson, D. D. S., Savannah, 2nd vice president; C. Waymond Reeves, M. D., C. M., Atlanta, general secretary; Marcus B. Hutto, D. D. S., Bainbridge, general treasurer; J. H. Hamilton, D. D. S., Atlanta, president Dental Section; Samuel Neal, Ph. G., Atlanta, president Pharmaceutical Section. The next meeting will be held in May at Waycross, Ga.

Waycross, Ga., Journal Herald

MAY 16 1926

TO HOLD ANNUAL MEET NEGRO STATE MEDICAL SOCIETY HERE NEXT YEAR

Waycross has been selected as the meeting place for the Negro State Medical Society in 1927, it is announced from Macon where the 1926 convention has just closed.

Dr. W. H. Wright, negro physician of Waycross, has returned from Macon, where he represented Waycross at the annual convention, composed of more than two hundred negro physicians, dentists and pharmacists. He discussed "Cancer," and delivered an address on "The Relation of the Physician to the Community". The sessions began May 11 extending three days. The Mayor of Macon delivered the welcoming address. Among other addresses were those on "Cancer Control" by Dr. J. L. Campbell, head of Cancer Division of Grady Hospital Atlanta; "Veneral Control" by Dr Ralph Stewart, U. S. Public Health Service, Washington, D. C., and by Dr. C. L. Ridley, health officer of Macon.

Negro Surgery in Atlanta Making Rapid Headway

9-12-'26

By B. J. DAVIS, JR.

Surgery among Negroes ha been in the past an entirely unex plored field. Few of our young men have prepared themselves fo this branch of medicine. Mos have been content to remain phy sicians. This has been mainly du either to the lack of funds on th part of a few of our younger self made men, or to a diversity o interest. Still fewer Negroes have reached the uppermost places in the field of surgery.

Another factor has contributed to the backwardness of Negro surgery. Almost wholly, Negro surgeons who have competently prepared themselves have lacked the confidence of their people. Confidence and support is needed as much in surgery as in business. If Negro surgeons don't operate on their own people, very little practice they will have upon whites. The white man has enough race pride to permit no one except white surgeons to operate upon him. But the Negro, tho he has skillful and competent surgeons, will completely ignore his own talent to seek the white man. Unfortunately, a few Negro physicians have not cooperated with the others by ignoring the talent of their own race and carrying their patients to white surgeons. For this lack of confidence and support, Negro surgery has suffered.

In our city, Doctors Reeves, Burney, Howell, Holmes Madison and others have taken part in pushing Negro surgery to the front. Dr. C. Waymond Reeves is one of our leading and most progressive surgeons. He has been very instrumental in arousing the Negro's confidence in his own surgeons. Dr. Reeves did his pre-medical and college work at Atlanta University, which as is known, receives very high rating by Northern Universities. After thorough preparation here he entered McGill University in Montreal, Canada, where he specialized in surgery and made an enviable record. McGill has one of the finest medical colleges in the western hemisphere. Dr. Reeves was the only Negro student in a class of 75. With the able assistance of Dr. J. W. Burney, he recently performed two serious and major abdominal operations on Mrs. Lucia C. Bishop, 181 E. Merritts Avenue, and Miss Mary J. Travis, 641 Fair Street, S. W., a daughter of Rev. P. H. Travis, pastor of Central Avenue M. E. Church. Both these patients have been speedily recuperating and are now almost back to normalcy. Unlike a few of our Negro doctors, Dr. Reeves keeps abreast of the latest and most scientific surgical methods by constant study and frequent visits to clinics during the year. He is thoroughly trained and, in skill compares favorably with any. We point with pride to the record he is making and to the future which his excellent ability projects.

We cite the instances of Dr. Reeves and others to bring to the attention of Atlanta the splendid progress of our Negro surgeons. No other proof of their skill and ability is better, than the citation of successful operations. The Negro need no longer go to the white surgeon when there is skill and competency along this line in his own race. All he has to do is to look about him."

WINS SUCCESS

DR. DONALD L. STEWART

Now a prominent physician in Atchison, Kan., Dr. Stewart has the distinction of being the only physician, regardless of race, in Atchison who is mentioned in the 1925 "Who's Who in American Medicine." He is a member of the National Medical association, the Kansas State Medical society and a number of other representative organizations. His medical training was received at the Boston College of Physicians and Surgeons. He has done special work in many of the leading hospitals of New England. He is recognized as one of the leading physicians of the Middle West and his clientele consists of the most prominent persons of both races.

TWO LOUISVILLE DOCTORS WIN $25.00 IN GOLD PRIZE MONEY

For Best Scientific Papers Presented To State And Local Medical Societies

Dr. J. A. Emerson, (DDS) was awarded the State Medal Association prize $25.00 for having read the best scientific paper before the society at the Annual Meeting which was held in Louisvill last May.

A C. McIntyre, M. D. won a similar prize of $25.00 from the Fall City Medical Society, for having presented the best scientific paper of the year in this society. These two awards carry the delegateship of the State and Local medical societies to the National Medical Association at Philadelphia Meeting during the week of August 22nd 1926.

The successful doctors are required to appear on the programme of the National medical Association and to present the same scientific papers. To the Falls City Medical Association.

The Committee of Awards met in accordance to your constitution and reviewed the several papers that had been placed in its hands for its careful consideration.

The several scientific treatease were indeed of a very high order and was at once apparent tha tthe several assayests had done a large amount of research and diligent work in the preparation of such excellent papers. The task of the committee was very pleasant, but difficult to decide and pass upon th emost meritorious paper, but a decision had to be made and by the voice of your committee of awards, the paper presented by A. C. McIntyre,, M. D., was elected for this honor.

Your committee, therefore designated A. C. McIntyre, your delegate to N. M. A. atPhiladelphia, Penn., August 1926 in pursuance of its duty.

Respectively,

J. E. SMITH, DDS.

Comm. OF Awards-John O. Catalan, M. D.

PHILADELPHIA ENTERTAINING NEWSPAPER MEN AND WOMEN

Exposition City Sees the Largest Attendance in Association's History

Philadelphia, Pa., Aug. 5th..(Special)—Members of the fourth estate representing newspaper workers from the various sections of the United States convened their 1926 session of the National Negro Press Association in this city today. This session will be presided over by Benjamin Jefferson Davis, editor of The Atlanta Ga. and J. E. Mitchell chairman of the executive committee, of St. Louis, Mo. Philadelphia's big rousing welcome takes place at Mother Bethel African Methodist Episcopal Church, at which time the city of brotherly love will open wide her doors and lift high her gates to let the quill-pushers, reporters, managers and members of the allied printing trade that make up this organization come in.

A number of unique social features have been planned for the week. Every editor or representative who was financial up to July 15th was provided with a season press ticket to the Sesqui-Centennial Exposition. This complimentary act constituted a part of Philadelphia's thoughtfulness and hospitable entertainment. One of the unique features of this session is the large number of the fair sex in attendance. The president, in his opening remarks, complimented the 4th estate in being now so magnetizing that it will draw from the beautiful bringing women from the extreme south as well as the north. He assured his hearers that they would participate in all the deliberations, and that the franchise as extended by the Association could be used freely. "You may come early and vote often," declared President Davis with a smile, in addressing himself to the large delegation present.

All of the business sessions are being held in the Christian Street Young Men's Christian Association. There are two sessions daily, morning and afternoon, the nights are to be given over to social functions and sight-seeing. On Saturday they will be introduced to Philadelphia as a city beautiful, while on Sunday a number will take in Atlantic City, Ocean City, Cape May, and some will go as far as New York.

Reports of all officers are to be made and officers for the next year elected. The President's address was well received, and the Corresponding Secretary's report, aside from giving the amount of work done through the year and letters written, contained some of the accomplishments during the past fifteen years that he has served in that capacity.

Press Association Re-elects Davis

Philadelphia, Pa.—The twenty-seventh annual session of the National Negro Press Association was held here August 4th inclusive.

Membership in the association was changed from an individual to a publication basis. Hereafter only publications will be members of the association.

The officers elected were B. J. Davis, president; Robert L. Vann, first vice president; J. B. Bass, second vice president; Henry Allen Boyd, corresponding secretary; I. Willis Cole, recording secretary; Mr. Tittle, assistant recording secretary; E. Washington Rhodes, treasurer; Melvin J. Chism, field secretary; J. E. Mitchell, chairman of the executive committee, and Miss Jeanette Carter, auditor.

It was decided to hold the next meeting of the association in Chicago in February, 1927.

Negro Press Ass'n Holds 27th Session

PHILADELPHIA, Pa., Aug. 9.—The National Negro Press Association met in its 27th annual convention on Thursday, Friday and Saturday at the Y. M. C. A., 1724 Christian street, and was attended by over 30 delegates representing newspapers from 15 states. The president of the association, Benjamin B. Davis, editor of the Atlanta Independent, presided over the sessions.

T. Thomas Fortune, "dean of Negro Journalism," editor of The Negroe World, was present and addressed a session of the association Thursday.

The newspapermen visited the Sesquicentenial Exposition in a body on Friday and were the guests of the Citizens' and Southern Banking Trust Company at a luncheon Saturday.

The Rev. T. S. Harten of Brooklyn, William Pickens and Editor Fortune addressed the public mass meeting Friday evening.

NATIONAL PRESS ASSOCIATION IN ANNUAL MEET

Membership Changed From An Individual To An Association Basis; B. J. Davis Re-elected President.

(By Associated Negro Press)

Philadelphia, Pa., Aug. 11.—The keynote address of T. Thomas Fortune, dean of Negro journalism; a discussion of advertising, led by Prince L. Bryant, advertising manager of the Philadelphia Tribune; an effort to secure secrecy in the transmission of news to more than five hundred papers; the best methods in Negro journalism, and ways and means of impressing the Negro public with the fact that the Negro Press is their best weapon in furthering its interests, were the principal features of the annual convention of the National Negro Press Association, just held in this city.

There were eighty representatives of newspapers present. The opening session of the convention was held in Bethel Church, and the other sessions in the Southwest Branch of the Young Men's Christian Association.

A committee of women, led by Mrs. E. Washington Rhodes, wife of the editor of the Philadelphia Tribune, staged a large party at the Strand Theater which was very largely attended.

Among the newspaper men present were: E. Washington Rhodes of the Tribune; Arthur F. Lynch, the Public Journal; Henry Allen Boyd, Nashville, Tenn.; Ben J. Davis, Atlanta, Ga.; Fillmore R. Purnell, Providence, R. I.; Larkin F. Garrison, Charleston, S. C.; C. V. Kelley, St. Luke's Herald, Richmond, Va.; F. B. Livingstone, Nashville; Joseph Mitchell, St. Louis Argus; Melvin Chisum, field secretary; I. Willis Cole, William H. Ferris, Carl Murphy, Afro-American; J. E. East, Mission Herald; Fred R. Moore, Robert J. Nelson, William M. Kelly and W. H. Davis of the Amsterdam News. Miss Jeannette Carter, Washington, was the leader of women delegates.

SESSIONS OF THE COLORED MEDICAL MEET CONTINUE

The sessions of the annual convention of the Louisiana Medical, Dental and Pharmaceutical Association, colored, continued here today, with the closing programs set for Thursday.

Dr. L. A. Butler, of this city, presided at the program Tuesday night at the Good Hope Baptist Church, at which the visiting colored physicians and others attending the convention were welcomed by Emanuel Breaux and Dr. R. L. Figgins, of Franklin. Music was furnished by the Osceola Five, of New Orleans, and Mrs. Lee Johnson.

Dr. A. O. Lyons, of Baton Rouge in an address, stated that he wished to commend the colored residents of Lafayette for progress they had made in a commercial and educational way and also in providing themselves with good homes. Dr. E. Charles Thornhill, of New Orleans, spoke of the need which he said existed for more colored hospitals in Louisiana. The principal address was given by R. Frederick, of New Orleans, president of the association. O. C. Taylor editor of the Louisiana Weekly published at New Orleans, was also a speaker.

Clinics are being conducted at the Good Hope Sanitarium here and at the offices of local colored physicians, during the three-day program, while dental clinics are conducted at the office of Dr. Morrison.

A recital for the benefit of the Good Hope Sanitarium is to be given tonight at 8:30, at the Lincoln Theatre, by the Osceolo Five. On Thursday, in addition to morning and afternoon sessions of the convention, there is to be a public reception Thursday night at 8:30, at Economy Hall.

MARYLAND DENTAL SOCIETY FEATURES TWO DAY HEALTH PROGRAM

Mouth Health Exhibit and Public Meetings Well Attended.

Co-operating with the statewide Negro Health Week program, the Maryland Dental Society conducted a two day dental health program April 7 and 8, centering its activities in the city of Baltimore. A special feature of the two days' intensive activities, was an educational Mouth Health exhibition held in the dispensary of the new Douglass High School.

Through the medium of specimens, models and descriptive pamphlets, supplemented by practical talks and explanations by members of the society, this end of the program was made most effective.

Two well attended public meetings were held, the closing meeting being in the auditorium of the Douglass High School at which addresses most appropriate were delivered. The president of the society, Dr. I. H. Young, gave a brief resume of the purposes of the exhibit and the objective sought. Dr. Francis M. Wood, supervisor of schools, spoke on the health movement and the schools, and Dr. Stephen J. Lewis of Washington gave the feature talk on, "The Dental Profession and Public Health Movements." Prof. Mason A. Hawkins, principal of Douglass High, spoke briefly on, "Health in the Public Schools." Appropriate music featured the program.

The two-day program was in charge of Dr. B. F. Browne as chairman. Dr. I. H. Young is president of the society and Dr. N. M. Williams is secretary.

Dr. C. V. Freeman Of Florida Elected Head Of National Medical Association

PHILADELPHIA, Pa., Sept. 2.—The 31st annual sessions of the National Medical Association closed here on Friday with the election of officers for the 1927 convention. The election of Dr. C. V. Freeman, of Jacksonville, Fla., was made unanimously. Dr. Freeman is the second dentist in the history of the association ever to be elevated to the presidency.

The local sponsors of the N. M. A. worked hard and intelligently to make the convention a success and this it was in every respect. The various clinics were well planned and moved with clock-work precision. Some of the greatest surgeons and specialists in Philadelphia, universally recognized as the American centre of medicine, felt honored in being allowed to perform major and special operations before the critical eyes of Negro doctors.

The social affairs were on a par with the scientific side of the meeting and all Philadelphia and his wife or best girl turned out in enthusiastic numbers to make the doctors feel that this is the most hospitable of cities.

Separate sectional sessions were held daily by the medical, pharmaceutical and dental divisions and joint sessions followed these in the afternoons. Timely and helpful papers were read and the discussions of these monographs furnished several high lights in scientific knowledge.

A sight-seeing tour arranged by the Citizens' Committee ended at the University of Pennsylvania, where high officials of the school welcomed the delegates and showed them through Ben Franklin's "College of Philadelphia" now grown into one of the greatest educational institutions in the world.

The allied professions of Atlantic City entertained the medical hosts from Friday till Monday and the beauties of the resort were witnessed by many for the first time in their careers.

To Dr. John P. Turner and his committee of professional associates who gave many long and valuable weeks towards preparing for the conference must go the major credit for the success of the gathering. This general executive committee was composed of Drs. V. P. Bailey, Fred Hopkins, Maurice Daney, James C. Alexander, R. W. Jenry, H. M. Minton, Frank Boston, W. Harry Barnes, J. Q. McDougald, C. W. Dorsey, P. M. Edwards, Paul J. Taylor, James L. Martin, A. R. Burton, T. S. Burwell, G. C. Brannon, Harold Norwood, Oscar Cooper, P. L. Hawkins, L. D. Christmas, F. W. Fortune, R. W. Bailey, George M. Strickland and Mrs. Sarah E. Selah and Isadore Martin.

The next sessions of the N. M. A. will be held in Detroit; that city's hustling representatives carrying the vote with little effort after their preliminary campaign of "education."

National Medical Body Held Annual Session At Philadelphia, Pa.

Philadelphia, Pa.—The National Medical Association closed its annual session in a furore of social activities, which included a big ball on Thursday night and motor trips to Atlantic City and Cape May on Friday, Saturday and Monday.

The 1927 session is to be held a week earlier in Detroit, Mich., thus enabling the doctors who affiliate with the Elks to attend the meeting and then get to New York for the Grand ...

The feature of the week, in point of general interests, was the Walter G. Alexander testimonial meeting on Tuesday night at Union Baptist ... Fitzwater above 19th street, the Rev. Dr. J. E. Kirkland, pastor, at which the splendid work of Dr. Alexander in building up the Medical Association was given its due meed.

Dr. Vincent In Clinic

The program included a number of clinics in the various departments, many of them of unusual interest and significance. The most notable of these was the surgical clinic conducted by Dr. U. Conrad Vincent of New York on Wednesday.

The social activities of the week were notably evident. Dr. John P. Turner was chairman of the general executive committee, and the various subcommittees were headed by medical men and women from all branches of the profession, and every effort for the comfort well being and enjoyment of the visiting medicos was given careful consideration. The nurses, with Mrs. Sarah E. Selah as chairman, and the citizens, headed by Isadore Martin, co-operated to the fullest degree.

The Board of Public Education of the City of Philadelphia donated the use of two large school structures, the Walter George Smith and James Logan, covering a city block, with ample yard facilities, for use of the visitors.

The program opened on Monday with meetings of the National Hospital Association and the Life Insurance Examiners, held during the morning and afternoon. At night, the executive board and officers were dined at the Marion Tea Room. Following this, the public opening meeting was held at Calvary M. E. Church, the Rev. C. A. Tindley, pastor, at which time President W. G. Alexander delivered his annual address.

Sectional Meetings

Wednesday was devoted to clinics in the various sections, with a public health meeting at night under direction of Dr. Roscoe Brown of the U. S. Health Service, at the auditorium of the Sesqui-Centennial.

Sectional meetings and sessions of the Howard and Meharry Medical College alumni bodies were held Thursday, and at night the annual ball was given at the Elks' new building, Broad and Wood streets.

After morning and afternoon business sessions, the doctors motored to Atlantic City as guests of the medicos of the seashore resort, for Friday night and Saturday. Monday they went to Cape May.

The local committee established headquarters at the Professional Club, 1519 Lombard street.

NATIONAL MEDICOS HOLD BIG MEETING

Philadelphia, Pa., Sept. 4—(A. N. P.)—The Thirty-first annual session of the National Medical Association was a most colorful gathering. Doctors, dentists and pharmacists from practically every State in the union were present numbering nearly two thousand.

The convention was opened in the Walter George Smith Public School, and most of the meetings were held there and in the James Logan Public School adjoining. The first sessions were devoted to the registering of delegates and the meeting of Life Insurance Board Examiners. There were meetings of the Executive Board, Zone Directors, ex-Presidents of the National Medical Association and State Vice-Presidents.

Perhaps the largest crowd ever assembled in the great Tindley Methodist Episcopal Temple (formerly East Calvary) was in attendance at the great public meeting on Monday night, at which time the Hon. W. Freeland Kendrick, mayor of Philadelphia, welcomed the large number of delegates to the City of Brotherly Love, asking them to return again ,believing that the visit will be helpfuf to both the city and the Association. The Mayor expressed the desire to have the persons present know the sincerity of his welcome, and paid a high tribute to the men representing this branch of science. The Mayor complimented Dr. John P. Turner, chairman of the general executive committee. At this same meeting addresses were delivered by Dr. I. M. Lawrence, who expressed welcome on behalf of the Professions of Pennsylvania; Isadore Martin, chairman of the Citizens' Committee, who spoke on behalf of the Citizens of Pennsylvania, and Prof. John Miller Marquess, who on behalf of the citizens, completely electrified his audience by pointing out what the Philadelphia Negro has done for this commonwealth along scientific lines.

It remained for Dr. George W. Bowles, of York, Pa., to make a most fitting and timely response to what Mayor Kendrick had said, and this Dr. Bowles did in no uncertain terms. Dr. Bowles let it be understood that there is no place in American life for any Caucasian who is so mean, so low, so narrow, and so full of prejudice that he would limit the progress of those of a particular racial group.

Dr. Walter G. Alexander, the president, read his annual address.

Interesting features of this meeting were several selections rendered by Carl Diton, the well known pianist, composer who sang "Oh, Love But a Day" (Beach); "In the Silence of Night" (Rachmaniloff), and "The Sea King" (Chadwick). Mrs. Clara Roma Peters of Washington, D. C., sang "Spring's Awakening" (Sanderson) and "Ombre Legere" (From the Opera Dinerah). The Coleridge Taylor Society of Philedelphia, under the direction of Mr. Alfred Hill rendered two selections.

An ovation that continued several minutes greeted the announcement that Marian, the famous contralto, would sing. Miss Anderson was in fine voice and had to respond to an encore, which went even better than her first number, it being several minutes before the presiding officer could restore quiet. Mayor Kendrick was particularly well pleased with Miss Anderson's singing.

A capacity audience greeted the medical men at the Union Baptist Church Tuesday evening, when a testimonial in honor of the unique service rendered by Dr. Walter G. Alexander, was given. Addresses were delivered by Dr. I. Garland Penn, founder of the National Medical Association, and Dr. C. V. Roman, of Nashville, Tenn., who delivered the chief oration commemorating Dr. Alexander's twenty years' servce to the National Medical Association. There were three minute eulogies by various members of the Association. Music was furnished by a section of the Sesqui-Centennial Chorus under the direction of W. Franklin Hoxter, Mrs. Alva Drain Olds, rendering a solo,

NATIONAL MEDICAL ASSOCIATION MEET

(By The Associated Negro Press)

Philadelphia, Pa., Aug. 31.—The Thirty-First Annual, Session of the National Medical Association was a most colorful gathering. Doctors, dentists and pharmacists from practically every State in the Union were present, numbering nearly two thousand.

The convention was opened in the Walter George Smith Public School, and most of the meetings were held there and in the James Logan Public School adjoining. The first sessions were devoted to the registering of delegates and the meeting of Life Insurance Medical Examiners. There were meetings of the Executive Board, Zone Directors, ex-Presidents of the National Medical Association and State Vice-Presidents.

Perhaps the largest crowd ever assembled in the great Tindley Methodist Episcopal Temple was in attendance at the public meeting on Monday night, at which time the Hon. W. Freeland Kendrick, mayor of Philadelphia, welcomed the large number of delegates to the City of Brotherly Love, asking them to return again, believing that the visit will be helpful to both the city and the Association. The Mayor expressed the desire to have the persons present know the sincerity of his welcome, and paid a high tribute to the men representing this branch of science. The Mayor complimented Dr. John P. Turner, chairman of the general executive committee. At this same meeting addresses were delivered by Dr. I. M. Lawrence, who expressed welcome on behalf of the Professions of Pennsylvania; Isadore Martin, chairman of the Citizens' Committee, who spoke on behalf of the Citizens of Pennsylvania, and Prof. John Miller Marquess, who, on behalf of the citizens, completely electrified his audience by pointing out what the Philadelphia Negro has done for this commonwealth along scientific lines.

It remained for Dr. George W. Bowles, of York, Pa., to make a most fitting and timely response to what Mayor Kendrick had said, and this Dr. Bowles did in no uncertain terms. Dr. Bowles let it be understood that there is no place in American life for any Caucasian who is so mean, so low, so narrow and so full of prejudice that

he would limit the progress of those of a particular racial group.

Dr. Walter G. Alexander, the president, read his annual address.

Interesting features of this meeting were several selections rendered by Carl Diton, the well-known pianist-composer, who sang "Oh, Love But a Day" (Beach); "In the Silence of the Night" (Rachmanioff), and "The Sea King" (Chadwick). Mrs. Clara Roma Peters, of Washington D. C., sang "Spring's Awakening"(Sanderson) and "Ombre Legere" (From the Opera Dinorah). The Coleridge Taylor Society of Philadelphia, under the direction of Mr. Alfred Hill, rendered two selections.

An ovation that continued several minutes greeted the announcement that Marian Anderson, the famous contralto, would sing. Miss Anderson was in fine voice and had to respond to an encore, which went even better than her first number, it being several minutes before the presiding officer could restore quiet. Mayor Kendrick was particularly well pleased with Miss Anderson's singing.

A capacity audience greeted the medical men at the Union Baptist Church Tuesday evening, when a testimonial in honor of the unique service rendered by Dr. Walter G. Alexander, was given. Addresses were delivered by Dr. I. Garland Penn, founder of the National Medical Association, and Dr. C. V. Roman, of Nashville, Tenn., who delivered the chief oration commemorating Dr. Alexander's twenty years' service to the National Medical Association. There were three minute eulogies by various members of the Association.

The feature of the testimonial was the presentation to Dr. Alexander by E. T. Belsaw, D. D. S., of Mobile, Ala., of a Quarter Century Gold Cane, as a mark of esteem. Dr. Alexnder made a touching acceptance of this token.

—Interesting Meetings and Clinics—

This session of the National Medical Association was marked by the number of interesting clinics and demonstrations which were held throughout the entire session in hospitals, and at the Sesqui-Centennial. The Chevalier Jackson Operative Clinic held in the Amphitheatre of the Jefferson Hospital was perhaps the most outstanding.

Exhibitions of Interest

Several important exhibitions were also held, especially at the headquarters of the Association. Many notable manufacturing chemists and medical and drug companies staged huge demonstrations of their products.

The National Drug Co. had perhaps the largest demonstration, as products of the new biological laboratories as well of the Pharmaceutical laboratories were displayed.

Interesting papers were read on the Part Played by the X-Ray in Diagnosis and Dr. R. W. Henry, of Philadelphia, said to be one of the best informed medical men on the use of the X-Ray opened the discussion.

The Dental Section was equally interesting, and modern methods used in the correction of defects of the mouth and teeth were demonstrated by prominent dentists from various States.

There was also a surgical section, and after a rather spirited time at this meeting, members of the profession went to the Phipphs Institute, University of Pennsylvania, and from there to the Jefferson Hospital where clinics were held.

Important Features of the Session

At the session of the National Medical Association the question of hospitals was discussed, and there was considerable talk as to the best means of rousing interest in the welfare of racial hospitals. At this meeting Dr. Doone, Superintendent of the Philadelphia General Hospital, spoke.

It was announced, which announcement was greeted with applause, that the Hospital Association, meeting with the Ntional Hospital Association in Chicago, recently agreed to furnish $250,000 for a survey of Negro hospitals.

Social Activities

Many social activities marked the session of the National Medical Association. There was a great ball in the handsome ballroom of the Elks; there was a cabret entertainment beginning at three o'clock in the morning at the Club Alabam, while in Atlantic City there were staged several big affairs.

MEDICAL MEN HOLD MEET IN PHILADELPHIA

More Than 2000 Doctors Pharmacists And Dentists From Every Section Of The Country Attend.

PHILADELPHIA, Aug. 25—(Special)—Over 2000 Negro doctors, dentists and pharmacists from every section of the country arrived here the week-end to attend the sessions of the thirty-first annual convention of the National Medical Association. All of the sessions are being held at the Walter George Smith and James Logan Public Schools, Nineteenth and Wharton streets. Throughout the week various clinics are being held at hospitals throughout the city.

The Chevalier Jackson Operative Clinic, which promises to be one of the most interesting on the roster, will be held in the amphitheatre of Jefferson Hospital on Thursday afternoon.

At Monday morning session, the National Medical Association discussed means of arousing interest in the welfare of racial hospitals. Dr. H. M. Green, of Knoxville, Tenn., presided. Dr. Doone, superintendent of the Philadelphia General Hospital, spoke. It was announced that the Hospital Association in Chicago recently, had agreed to furnish $25,000 for a survey of Negro hospitals.

The National Association of Life Insurance Medical Examiners also held a session. The president, Dr. Julian Lewis, one of the few Negroes in the country holding a chair at a white university, assistant professor of pathology at the University of Chicago, presided. An address on diagnosis of pulmonary tuberculosis by Dr. Henry Minton, superintendent of Mercy Hospital, was one of the features.

NATIONAL MEDICAL ASSOCIATION TO HONOR ITS PRESIDENT

The thirty-first annual session of the National Medical Association will be held in Philadelphia, August 24, to 28, 1926.

The local committee of arrangements headed by Dr. John P. Turner, co-operating with the general secretary of the National Medical Association Dr. Clyde Donnell of Durham, N.C., has mapped out a very comprehensive program. Papers will be read by the outstanding men of the profession, representing all sections of the country in medicine, surgery, dentistry, and pharmacy. The most elaborate program of clinics in all branches of medicine that has ever been prepared for a meeting of the National Medical Association has been arranged through the Philadelphia Local Committee. These clinics will be held at the Jefferson Hospital, University of Pennsylvania Hospital, the Philadelphia General Hospital, Mercy Hospital and Douglass Hospital, and in the school buildings where the meetings will be held. Co-operating with the members of the profession in giving these clinics, who are members of the National Medical Association, will be men who are internationally known in their special branches. General and specialist surgeons of renown will return from their vacations especially to conduct clinics for the visitors to the National Medical Association.

The city officials of Philadelphia have granted the use of Walter George Smith Public School at Nineteenth and Wharton Streets, and the James Logan Public School at Nineteenth and Reed Streets. The scientific sessions of the association will be held at these two places, as will also medical and pharmaceutical clinics.

On Sunday preceding the opening of the session, representatives of the National Association will appear at various churches throughout the city and give general health talks.

On Monday there will be a meeting of the National Hospital Association and of the National Association of Life Insurance Medical Examiners.

For the first time in the history of the National Medical Association. the formal opening of the convention will be held on Monday evening instead of Tuesday evening as formerly. On Wednesday evening a public health meeting will be conducted by Dr. Roscoe C. Brown, Assistant General Secretary of the National Medical Association in the auditorium of the Sesquicentennial Exposition.

An exceptional feature of this convention will be the testimonial which will be tendered Dr. Walter G. Alexander of Orange, president of the National Medical Association. Doctor Alexander was for twelve years general secretary of the National Medical Association and conducted its affairs during the most trying period of its existence. He was also for four years general manager of the Journal of the National Medical Association and has been since its beginning an associate editor of the Journal.

The sessions of the convention will close on Friday afternoon; then the delegates go to Atlantic City where they will be guests of the Atlantic City physicians under the direction of Dr. P. L. Hawkins. Receptions for the delegates will be tendered by the citizens of Philadelphia on Thursday evening, and in Atlantic City on Friday evening and Saturday.

An attendance of 3,000 physicians is expected in Philadelphia.

ANOTHER SPECIALIST, EX-P. V. PRINCIPAL, WILL PRACTICE HERE

Dr. J. G. Osborne, who recently returned to the state from Chicago where he spent several months in post work, making diseases of the eye, ear, nose and throat, has opened his office in the U. B. F. building, 409½ Milam, where he has installed the very latest equipment designed for the modern treatment of the diseases above mentioned.

Dr. Osborne, for years a practioner in this state, and, until a few months ago, principal of Prairie View College, last year purchased the home formerly owned by E. D. Pierson at 318 Robin, at which time many of the doctor's friends urged him to hang out his shingle in our city, and now since he has seen fit to do so, we predict for him a successful career, from the very beginning.

May E. Chinn Given Degree in Medicine

To Serve Interneship at Harlem Hospital—Southern Classmate Praises Her

By THELMA E. BERLACK

Miss May E. Chinn, 145 West 138th street, received the degree of Doctor of Medicine from New York University and Bellevue Medical School, 26th street and First avenue, Wednesday, June 9. In the class of ninety-two members five were women.

She has started a two-year interneship at Harlem Hospital as the first woman to serve in that capacity at Harlem, and as the first Negro woman to finish Bellevue Medical School.

"It has been good to be in class with a colored woman," said one of Dr. Chinn's southern classmates to her [illegible] the [illegible] other good-bye on graduation day.

A short sketch of Dr. Chinn's life and activities follows: Dr. Chinn, who is still in her twenties, was born in Great Barrington, Mass., and has lived in and around New York since she was [illegible]. She was graduated from Morris High School in 1917; received a B. S. degree from Columbia in 1921.

While in Columbia four years Dr. Chinn worked in the laboratory as bacteriologist. She was instrumental in getting the same position for another colored girl.

She entered New York University and Bellevue Medical School in 1922; during that summer she worked as bacteriologist for the State Board of Health. In 1923 she did a research problem for Columbia.

"I wanted to be a nurse," said Dr. Chinn reticently as she told of her career, "but mother discouraged me. I entered Columbia with the hope of majoring in music. However, in the second year I changed to a science course.

"My interest in the profession of medicine was encouraged greatly by Dr. Jean Broadhurst of Columbia, who directed my course."

At present Dr. Chinn is preparing some slides for teaching to illustrate Dr. Broadhurst's book.

As a musician, Dr. Chinn h. studied piano with Mary Lee Bibbins; pipe organ with Prof. Pa: Bolin, and vocal with Grace Dasc bach.

At the alumni dinner given b the women of New York Universit at Hotel Majestic, in April, and a the dinner of the class of '26 at Hotel Martinique, Dr. Chinn sang She was coached in her songs for both occasions by Mme. Daschbach.

Dr. Chinn, a member of the Delta Sigma Theta Sorority, is a daughter of Mr. and Mrs. William Chinn.

When asked about her bobbed hair, Dr. Chinn said, "The first thing I did after my examinations were over was to bob my hair."

Dr. Chinn plans to practice in Harlem and do research work after she has completed her interneship.

Dr. Wiley M. Wilson Reelected Head of North Harlem Medical Association

At the last regular meeting of the North Harlem Medical Society, at the Association of Trade and Commerce on December 16, Dr. Wiley M. Wilson and Dr. Harold Ellis were re-elected to succeed themselves as president and recording secretary, respectively, for the next year. Their election was unanimous.

Other officers elected were: Dr. Lucien H. Brown, vice president; and Dr. Theodore Reid, financial secretary. The executive committee is composed of Drs. Aaron McGhee, C. B. Powell and Allen B. Graves.

The meeting was featured by the reading of the annual report of the recording secretary which gave a review of the Society's activities during the past year. All the members present were enthusiastic in praise of the work being done and pledged their wholehearted cooperation for the future welfare of the Society.

Dr. Anna Cooper to Practice Here

Second Negro Woman to Graduate From Cleveland Medical College

Dr. Anna R. Cooper, a recent resident of New York City, was the second Negro woman to be graduated from the University of Medicine and Surgery in Cleveland, Ohio, in [illegible]. The university is now called the Homeopathic Hospital College.

"I was the oldest of 11 children of Mr. and Mrs. [illegible] Cooper," said Dr. Cooper as she told of her family. "We were all born in Richmond, Va. I went to Ohio to work for a white family, and they helped me through school."

Dr. Cooper, a specialist in women's and children's diseases, is to take the New York medical examination in November.

Her medical courses and activities include the following: Took clinical courses in 1895 at the Homeopathic Hospital, and courses in 1909 at the University of Boston; conducted a nurse course in the public schools of Richmond, Va., for three years; practiced 15 years in Chicago, where she first started her practice.

About Nov. 1 Dr. Cooper, who lives temporarily at 2068 Fifth avenue, plans to conduct a course in practical nursing.

Anna R. Cooper, M. D.

Medical Profession in Harlem Gets New Addition

Colored Professional Men to Meet Here February 18

The Eastern Carolina Medical, Dental and Pharmaceutical Association, an organization of the colored physicians, dentist and druggists of this section, will meetin Enfield on Thursday, February 18th, as guests of Dr. M. E. DuBissette and the Enfield Colored Hospital. Among the membership of this organization are some of Eastern Carolina's most prominent members of the race, and Enfield is glad to be their host, wishing them a a pleasant and proiftable sojourn among us. This is the first time the Association has ever met in Halifax County, and it came to Enfield upon the invitation of Dr. DuBissette.

OLD NORTH STATE DENTAL ASSOCIATION HOLDS SEVENTH ANNUAL SESSION APRIL 6 and 7, AT SALISBURY

The seventh annual session of the Old North State Dental Association, was held at Salisbury April 6 and 7, with the usual large attendance and full program of activities. Featured in the program of clinics were Dr. D. A. Ferguson of Richmond, in demonstrations in practical prosthesis, and Dr. M. J. B. Wiseman of Washington, D.C., in clinical demonstrations with exodontia and conductive anesthesia. Dr. A. M. Rivera of Greensboro presented some new phases in radiography, while Dr. G. G. Evans of Raleigh presented a clinical demonstration on modern bridge abutments.

The meetings of the Old North State have grown in professional interest from year to year and attract many practitioners from other states. Its membership includes practically every dentist in North Carolina identified with the racial group.

The social program consisted of ad interim smokers and round table evening sessions and closed with a formal reception at the Masonic Auditorium in Statesville on the evening of the 7th.

The opening public meeting was held in the Price High School auditorium and was presided over by Dr. W. H. Wallace of Salisbury, who is the general secretary of the Interstate Dental Association.

The officers of the Association are: Dr. G. C. Simpkins, Greensboro, president; Dr. J. M. Hubbard, vice-president, and Dr. M. L. Watts, secretary.

NEGROES TO MEET

Chester, April 8. (By Herald Correspondent.)—The Palmetto Association, which embraces the negro doctors, druggists and dentists of South Carolina, will hold its annual convention here Thursday, April 27th, and remain in session three days.

The association has a membership of 160 and an attendance of approximately 100 is expected for the convention.

The sessions will be held at Carmel Presbyterian church. A baseball game between Brainerd Institute here and a Rock Hill team is on the schedule for one afternoon. An interesting pro-am has been arranged crowded business and pleasure.

MEHARRY FACULTY MEMBER MAKES INVENTION

One of the recent accomplishments along the medical line was announced last week when Dr. E. F. Alleyne, associate Professor of Obstetrics, presented his invention. He is connected with Meharry Medical College and has invented an instrument that will enable physicians to obtain results in the home by use of his invention, which experienced practitioners declare could not be obtained in the home. Dr. Alleyne's invention will give the same attention in the home as was obtained in hospitals in the treating and examination of women. It has been registered in the United States Patent Office according to notice just received last week. It was patented April 30th.

Dr. Alleyne is said to have done post-graduate work in a number of schools, including them being Roosevelt Hospital. His friends predict that he will become one of the leading physicians of the race in a little while.

Nashville Globe 5-14-21 Nashville, Tenn.

Doctors To Hold Next Meet In Memphis

Chattanooga, Tenn., June 26.—"The increasing confidence in the professional skill of the Negro physician, on the part of the general laity is in evidence on every hand due to the wonderful accomplishments of surgeons who, during the last few years have performed in a successful manner, some of the most difficult operations," was the declaration of Editor W. L. Porter, of The East Tennessee News, Knoxville, in an address before the Volunteer State Medical association which closed its twenty-second annual session here, yesterday.

"All races are willing to accord members of the Negro medical profession the proper degree of recognition due to the efficiency the latter day doctors are exhibiting, and that type of individuals who have been inclined to take chances with the quacks, midwives and dispensers of patent medcines, are fast disappearing as the services of the well trained and intelligent, licensed men and women doctors are sought to administer treatment to physical ailments," the Knoxville editor declared.

Urges Closer Co-operation.

"Any evidences of retrogression on the part of the members of the profession in certain sections can be attributed to the lack of co-operation of the physicians themselves," said Editor Porter, "and where petty jealousies exist, such goes far toward impeding the progress of the professional men among their racial group," he further declared.

Scores Attitude of Officials.

The speaker scored the custom which obtains in many cities where by the Negro physician is barred from the municipal hospital and denied the privilege of administering treatment to even those patients of his racial group who are desirous of having his service, as wholly discriminatory and unjust. He urged that all forces combine in an effort to have any such unjust laws repealed.

The sessions of the association which began on last Wednesday evening with an elaborate program of welcome addresses participated in by the mayor and several other distinguished leaders of both races, were held in the auditorium of Howard High school. Members of the profession from every section of the state were in attendance. The reception staged at the beautiful Soldiers' Memorial auditorium on Friday night marked the close, and this enjoyable affair was participated in by hundreds of Chattanoogans who assembled to honor the visitors. Addreses on this occasion were delivered by Dr. Stewart of Washington, D. C.; President W. J. Hale, of the Nashville A. & I. State college, and other prominent visitors to the meeting.

Dr. West Chosen President.

The election of officers was held on Friday afternoon at which time Dr. C. A. West, of Memphis, was chosen president. Memphis was selected as the net place of meeting which wil lbe in June, 1927. Other officers elected by the association follows: Dr. J. H. Cornell, first vice-president; Dr. W. H. Sherrell, second vice-president; Dr. M. L. Boyd, third vice-president; Dr. J. A. Lester, secretary; Dr. N. J. Astrapp, treasurer; Dr. Guy Williams, assistant secretary; Dr. E. Wilson, assistant corresponding secretary; Dr. E. M. Brown, historian; Dr. O. B. Taylor, statistician; Dr. S. H. Clemons, critic.

"Mountain City" Medicos Announce Elaborate Plans

CHATTANOOGA, TENN.— All citizens are co-operating with the members of the Mountain City Academy of Medicine under the leadership of Dr. J. B. Hankal, to make the reception to be accorded the delegates to the Volunteer State Medical Association, which will meet here on June 23, 24 and 25, one of the most elaborate that has ever before been accorded that body. This city is the home of Dr. Hankal the state president as well as Dr. T. A. Key the chairman of the executive committee, and these two officials announce that all is in readiness to entertain what is expected to be the the largest attendance in the history of the organization.

The exercises will begin on the evening of Wednesday, June 23 at 8 o'clock at which time the welcome exercises will be held. The following program will be observed:

Invocation, Rev. G. A. Stams

Music

Addresses on behalf of the city of Chattanooga, the Colored Citizens, and the medical society by Mayor Richard Hardy, Dr. C. K. Brown, and Dr. T. E. Taylor, respectively. Dr. C. V. Roman, of Nashville will respond on behalf of the state association.

On Thursday morning the work of the association will be started proper with the pronouncing of the invocation by Rev. H. E. Johnson. This will be followed by roll call and registration ,the reading of the minutes of the previous meeting, discussion of constitution and by-laws, announcements of clinics and several musical selections. The annual address of the president will also be delivered and the address of Major Joseph H. Ward, commanding officer of the Tuskegee Veterans' Bureau, will be a feature of this session. Dr. W. A. Reid will also deliver an address on the subject "The Relation of Materia Medica to the Practice of Medicine." The discussion will be opened by Dr. H. C. Floyd.

Rev. E. Moore will open the afternoon session of Thursday with the invocation and President W. J. Hale, of the A. & I. State College will deliver the first address of the afternoon. This will be followed by the addresses of Dr. W. S. Quenland, Nashville; Dr. H. M. Green, Knoxville; Dr. N. B. Callier, Chattanooga; Dr. C. B. Crittenden, Chattanooga city health director, and Dr. J. W. Lawrence. The discussions during this session will be opened by Doctors L. A. West, O. W. Sherrill and A. W. White.

The social features of the session will begin on Thursday evening when the men visitors will be the guests of the city at a smoker and the ladies will be entertained at cards at the Dent Hotel.

The invocation on Friday morning will be offered by Rev. C. A. Bell and addresses will be delivered by Doctors H. E. Elliott, E. F. McIntosh and S. H. Clemmons. The discussions will be opened by Doctors J. W. Bright and W. E. A. Ford.

The session of Friday afternoon will begin with an address by Editor W. L. Porter, of the Knoxville East Tennessee News. Doctors H. H. Walker, R. B. McArthur, J. H. Hale, Beck and Mullowney, the latter the president of the Meharry Medical College, Nashville, will also deliver addresses at this session and the discussion will be opened by Dr. B. F. Davis. The reports of the treasurer, executive and special committees; the installation of officers and miscellaneous business will then follow.

The principal social feature of the entire session will be the grand reception to be held in the beautiful city Memorial auditorium on Friday evening, at 8 o'clock.

Other officers of the state association are Dr. H. H. Walker, Nashville, president elect; Dr. E. F. Lennon, Knoxville, Recording secretary; Dr. A. W. White, Bristol, Corresponding secretary; Dr. J. A. Lester, Nashville, acting secretary; Dr. W. J. Astrapp, South Pittsburg, treasurer.

The surgical clinic will be conducted by Dr. J. A. McMillan the medical director of Hubbard Hospital, Nashville.

Texas.

Houston Citizens Set Pace In Entertaining Texas Medical Association —Many Novel and Unique Events Staged — Constructive Programs Rendered—Clinicians Show Skill and Technique.

The fortieth annual session of the Lone Star Medical, Dental and Pharmaceutical Association, with Dr. A. E. Jones of Houston as president, was held in Houston during the week, the sessions being held at the Odd Fellows Temple headquarters for the state meeting and local allied medical association. Considered from the angles of real work done, data and information gained, entertainment provided and numerical attendance, the present meeting surpasses any previous gathering in the history of the Texas body according to those who are in a position to know the facts and make honest and impartial comparisons.

Not only did the majority of the Houston doctors, dentists and pharmacists do all within their power to make the association a success, but the leading citizens of the city vied with the professional men in providing entertainment and pleasure for the visitors, the first stunt, a "smokeless smoker", being the Tuesday night offering. This surprise stunt was staged at the Junior City Auditorium by the citizens' committee, of which Prof. James D. Ryan, principal Jack Yates Colored High School, was chairman.

The opening public program was executed in the auditorium of the Odd Fellows Temple Tuesday night, the official welcome being delivered by Hon. H. A. Halverton, land and tax commissioner. Dr. J. M. Lawson, Temple, responded. Dr. O. L. Bledsoe, Marshall, responded to the welcome for the citizens by Prof. Ryan, the East Texan's response being a brilliant effort. E. A. Etter, Galveston, made an interesting talk on "Health", while Dr. M. G. Mosely, Waco, read an excellent paper on "Modern Dentistry." The music for the occasion was rendered by the Coleridge-Taylor Choral Club, Mrs. P. O. Smith, directress. The club's singing was very pleasing and made a decided impression upon the auditors. Invocation was pronounced by Rev. J. R. Burdette, pastor Bethel Baptist Church. Dr. W. J. Howard, general chairman, served as master of ceremonies, with Dr. P. D. Foster serving as chairman of the program committee, automatically succeeding the late Dr. C. A. George.

President Delivers Message.

The message of President A. E. Jones was the outstanding feature of the Tuesday afternoon program. Among other things he said:

"The whole world today stands aghast at the rapid advances in the healing art. Day after day new discoveries are being made and new theories are being advanced, based upon scientific deductions, and it is noteworthy to observe that among our own group wonderful contributions of valuable ideas are picked up here and yonder, such as will enable us to return to our various fields of practice better prepared to render that service which will be conducive to the best results. Notwithstanding this branch of science has outstripped that of any of the other sciences, there yet remains with us a long list of incurables, which are claiming thousands of our patients and friends each year. The constant cry for help rings daily into our ears, and it is ours to go forth to fight until we have conquered the last foe."

The president discussed the $75,000 hospital soon to be delivered to the colored citizens of Houston, the culmination of a small effort begun some years ago by a small group of local doctors. He also stressed the importance of post-work and specialization, arguing that rapid advances in medicine and surgery make it imperative that the doctors make periodic studies of these important subjects. The illegitimate practice of medicine was frowned on, and all practitioners urged to uphold the ethics of the profession.

In his recommendations President Jones suggested two groups of members in the state organization, viz.: delegates and representatives; that a house of delegates be organized consisting of 30 members.

The dental section, Dr. T. L. Hunter of Marshall, chairman, held some very interesting sessions, with Dr. Adolphus Walton, Howard University, Washington, D.C., as chief demonstrator and clinician.

The papers and addresses delivered at this session were of a high order, and the clinics were very successful.

The ladies' auxiliary, Mrs. H.E. Lee, chairlady, saw to it that all of the female visitors were tendered the hospitality of the City, and several social events were staged for the entertainment of the visiting ladies. The first was held at the Y.W.C.A. parlors Tuesday afternoon; the next at the Elks' rest, 2208 Leeland, Wednesday, and an early rustic breakfast Thursday morning. The annual banquet of the association was held in the City Auditorium, Wednesday night, same being attended by the elit of the City, as well as the visitors. It was a very brilliant occasion, and all present had a delightful time.

Some of the leading doctors, dentists and pharmacists of Texas are present at the annual meeting, which came to a close Thursday night, thus ending the best session held in the organization's history.

DOCTORS APPOINT LOCAL COMMITTEES FOR STATE MEETING

The Allied Medical Society of the city has appointed several committees to look after the visiting delegates during the annual session of the Lone Star State Medical, Dental and Pharmaceutical Association, which convenes in Houston June 8-10, 1926.

The following committees have been announced: Reception: Dr. C. A. Phillps, Dr. T. J. Hackett and G. R. M. Newman; housing, Dr. B. F. Barclay, Hobart Thomas and Homer E. McCoy; printing, Drs. C. W. Pemberton, A. R. Reese, C. M. Nichols; medical clinics, Drs. F. F. Stone, J. W. Dickson, E. B. Radney, Finance, Drs. C. A. Jackson, R. F. Ferrill, H. M. Whitby, J. R. Terrell; entertainment, Drs. T. M. Shadowens, L. M. Mitchell, C. L. Barnes, O. L. Lattimore, C. A. Wilson; program, Drs. C. A. George, G. W. Antoine, P. D. Foster; exhibits, Dr. F. L. McDavid, Dr. R. H. Ward, B. H. Smith; surgical clinics, Drs. H. E. Lee, W. M. Drake, B. J. Covington, dental clinics, Drs. L. Mitchell, B. F. Barlow; information, Drs. R. O. Roett, A. J. Maddox, J. T. M. Lindsay, W. E. Taylor; pharmacy clinics, Virgil Byars, Miss R. A. D. Jones; publicity, Drs. Thelma A. Patten, C. A. Jackson and John Davis.

All persons desiring to take advantage of the free clinics conducted during the state meeting here, are asked to get in touch with their family physician or Dr. Stone or Dr. Lee.

HOUSTON SURGEON ACCORDED SPECIAL HONOR AT CLINICS

Dr. H. E. Lee, one of our most eminent surgeons and physicians, with offices in the Odd Fellows Temple, has received a card notifying him that he was elected supervisor of surgical clinics at the recent medical meeting held at Tuskegee Hospital, Tuskegee, Ala. This honor came to the Houston doctor after he had left the clinics for home, and shows what men in the profession from Texas and other states think of Dr. Lee's surgical knowledge and ability. He read a very able and interesting paper to the meeting on "The Surgical Appendix."

Among other Houston doctors to attend this annual clinic at Tuskegee were: Drs.. B. J. Covington and W. M. Drake, both of whom maintain offices in the Odd Fellows Temple. Dr. J. M. Franklin, resident physician at Prairie View College, also attended the clinics; also Dr. J. R. Sheppard of Marshall, a very eminent surgeon and physician, as well as several other Texas physicians of color. It is stated that Texas had the largest representation of any Southern state, excepting Alabama and Georgia.

HOUSTON GETTING READY FOR MEDICAL MEETING IN JUNE

The physicians, dentists and pharmacists of Houston are getting ready to entertain the Lone Star State Medical, Dental and Pharmaceutical Association during the early part of June, when the state body meets here in annual session.

All sesisons and functions of the association will be held at the Odd Fellows Temple, with the exception of the surgical and medical clinics, which will be held at the new colored hospital now under course of construction in Third Ward, near Jack Yates Colored High School. All exhibits will be on display at the Temple.

The opening public program will be held in the auditorium of the Temple Tuesday night, June 8, 8:30 o'clock. Music for this occasion will be rendered by the Coleridge-Taylor Choral Club.

Wednesday evening, June 9, the social event of the asosciation will occur. This annual banquet is always the crowning event of the meeting from a social viewpoint.

A citizens committee, with Prof. James D. Ryan as chairman, has been organized, which will also assist in the entertainment of this association.

The executive committee of the local allied asociation is composed of Drs. W. J. Howard, chairman; B. J. Covington, secretary; Hobart Thomas, treasurer; R. F. Ferrill, G. W. Antoine. Dr. Thelman A. Patten is chairlady of the publicity comittee.

FEDFORD ATTENDS OPTOMETRIC ASSN. HELD AT FT. WORTH

A. B. Fedford, San Felipe jeweler and optometrist, returned from the post-graduate clinics of the American Optometric Association, held at Ft. Worth, April 12, 13 and 14. He is delighted with the attendance, and says it is like a short course at college. Much of interest to the public was also discussed. The latest developments in advanced professional practice were demonstrated and illustrated by clinical cases.

Dr. W. B. Needles, chief clinician of the American Optometric Association, gave some startling facts and figures regarding the great loss of production due to the defective vision of workmen in factories, as well as the heartaches and disappointments because of the poor grades defective vision causes our school children all over this land.

It is to make America more eye conscious, the people more careful in the care of their eyes and to help them to put a greater estimate on the value of efficient vision, that the American Optometric Association is holding these post-graduate clinics.

Mr. Fedford attended this clinic in order to get the benefit of the latest developments in optometric practice, which he can pass on to his local patients.

OLD DOMINION MEDICAL SOCIETY CLOSES SESSION

21st Annual Session In Richmond Marked By Large Attendance And Much Enthusiasm.

Richmond, Va.—The Old Dominion Medical Society held its 21st annual meeting in Richmond June 15th, 16th and 17th with one of the most enthusiastic gatherings of medical, surgical and pharmaceutical men ever assembled in any city in the state before, among the race group. 7-3-26

The preparations made by the Richmond Chapter some months in advance of the meeting were well laid and carried out to the minutest detail which insured a well run convention with interest sustained throughout the sessions covering the three days. More than sixty physicians, surgeons and pharmacists attended the meetings. Expressions from out of town visiting medical men indicated that the sessions were filled with more genuine interest and information than any ever before attended by them.

Where Sessions Were Held

The regular sessions were held at the home of the Williams' Lodge of Elks, Fourth and Clay streets.

The sessions opened officially on Tuesday morning, June 15th with the president Dr. L. C. Downing of Roanoke, Va., presiding. After the reports of committees and other routine business were disposed of, the president delivered his annual address. Following this address, papers were read on the following subjects, "Tetany," led by P. G. Dabney, M. D., of Fredericksburg; "The Pharmacist in the Community" by C. T. Baylor Phar. D. of Richmond; "Ulcer of the Stomach" by O. B. H. Bowser, M. D., of Richmond. The subjects were further discussed by Drs. J. B. Darden of Petersburg A. M. Bowles of Richmond, and D. W. Byrd of Norfolk respectively.

Public Health Meeting

On Tuesday night a public health meeting was held at the Sixth Mt. Zion Baptist Church, with Dr. E. S. Roane of this city.

After the devotionals, led by Rev. Mr. A. W. Brown, pastor of the church, musical numbers were sung followed by remarks by Dr. I. A. Jackson, president of the Richmond Medical Society; the welcome address by Attorney Jas. T. Carter, president of the Southern Aid Society and Commercial Bank and Trust Company. Other addresses, by Dr. R. J. Mathews of Norfolk, Miss Carrie M. Sharp, R. N. on behalf of the nurses, followed. The principal address of the evening was delivered by Dr. G. W. Bowles of York, Pa., on the subject "Conservation of Health." The address by Dr. Bowles, who is chairman of the National Medical Association was of fundamental benefit to this community and was calculated to give valuable information and advice in the making and maintaining of a health community. Musical numbers were supplied by a double quartette from the Sabbath Glee Club and by Mrs. Alverta Gilpin.

Medical Clinics

On Wednesday the day was primarily set apart for attendance at medical and surgical clinics; the latter being held at the Sarah G. Jones Memorial Hospital. Six major operations were performed at this clinic with much success in each case. The medical clinics held at the Elks' Home were conducted by Dr. Joseph Bear, Assistant Professor of Obstretics at the Medical College of Virginia, Dr. Warren T. Vaughn internist; Dr. F. D. Whitby, neurologist; Dr. S. W. Budd of the St. Luke Hospital. On Thursday the closing day of the convention, discussions of general nature with additional clinics were the activities for the day.

There were interspersed a number of social activities for the entertainment of the visiting guests, among which was a reception at the home of the Council of Colored Women on Tuesday evening following the public health meeting; a Dawn Dance on Wednesday morning at the Elks' Home; a card party for the visiting ladies on the evening; a sightseeing trip about the city and a closing dansant at Johnson's Auditorium on Thursday night. The latter affair was a brilliant an denjoyable occasion with more than three hundred guests present..

The local committee on arrangements, with Dr. F. S. Roane, as general chairman spared no pains to make the convention attractive and the entertainment of the visitors enjoyable. Dr. A. W. Winslow, of Danville, Va., was elected president of the Old Dominion Medical Society for the next year. The convention meets in Portsmouth for its 22nd annual meeting next year.

DENTISTS OF STATE MEET HERE APRIL 15

Old Dominion State Dental Association Will Be Guests Of Norfolk Dental Fraternity In Annual Session.

LARGE NUMBER OF VISITORS EXPECTED

The Old Dominion State Dental Association will be the guests of the Norfolk dentists on April 15 to 16 in the association's thirteenth annual convention. The state dentists last met in convention in this city in 1915, hence will be coming here for their first time in eleven years. 4-3-26

The headquarters of the convention will be in the Hotel Wheaton and the sessions will be held in the hotel lobby except the public esssion on Thursday night, April 15, which will be held at the First Baptist Church. According to the program arranged for this public meeting, it promises to be of special benefit to the laity because of the fact there will be a number of addresses by the visitors which will deal with public health in general and will be void of technical and scientific terminology.

The Addresses

The address of welcome will be made by Dr. G. Hamilton Francis on behalf of the Professional and Business Men's Club, of which he is the president and on behalf of the general public. Dr. E. D. Morton, State Clinician, will give a comprehensive report on his year's work with the State Commission; Dr. H. P. Wheeden, of Lynchburg, president of the Old Dominion State Dental Association, will respond to the welcome address, and Roscoe C. Brown, M. D., formerly of the United States Public Health Service now in charge of the life extension service of the North Carolina Life Insurance Co., will deliver the principal general health talk. The local pastors and their congregations and school teachers are especially urged to attend this meeting in large numbers and hear these talks which will prove of inestimable value to the public health.

Scientific Program

The scientific program of the convention as arranged is one of the best to which the association has ever devoted its attention. The Virginia Tidewater Dental Society, of which Dr. H. E. Bonney is the president, is co-operating with the Old Dominion Association in this respect, Dr. Bonney having been instrumental in securing a number of the most prominent members of the Tidewater Society to appear on the scientific program.

On the night of April 15, following the public meeting a reception will be extended the visitors at Juanita's on Church St., by the Professional and Business Men's Club. This affair is planned as evidence of the cooperation the local public will give toward the entertainment of the visitors.

Large Number Expected

Guests who will come to the city during the two days from Hampton, Petersburg, Suffolk, Lynchburg, Roanoke, Richmond and vicinities, including the members of the association themselves are expected to number about 800, and the local public is putting forth admirable efforts in co-operation with the local dentists to entertain the visitors. Norfolk is sepecially keen on securing conventions now it being realized that the city offers splendid facilities and attractions for becoming a convention city, therefore the business men, the professional folks and the general public expect to see that the Old Dominion State Dental Association is entertained here in a manner commensurate with Norfolk's prestige.

While in the city the visiting dentists will make a visit to the public schools where short talks on public health will be given in a manner that will be readily understood by the children.

THIRTEENTH ANNUAL SESSION OF THE OLD DOMINION STATE DENTAL ASSOCIATION

Norfolk Host to 1926 Meeting

The thirteenth annual session of the Old Dominion State Dental Association was held at the Hotel Wheaton, Norfolk, April 15 and 16. The program consisted of two days of clinics, demonstrations and essays participated in by members of the Association and special program features by specialists from Portsmouth, Norfolk and Richmond, of the Virginia State Dental Society.

The opening session of Thursday was followed by a public evening meeting at the First Baptist Church during which mouth health in relation to systemic disease was stressed. At this meeting Dr. Fred D. Morton, State Dental Clinician, made his report of the work done in rural sections under the State Department of Health. Dr. L. A. Fowlkes spoke on Oral Hygiene. Welcome addresses and appropriate music featured the program.

Thursday's clinical program offered Dr. Fowlkes in "Dental Orthopedics"; Dr. E. B. Canady in "Orthodontia"; Dr. G. P. Downing, "Conductive Anesthesia" and several essays of general interest. Friday morning was given over to general discussion of "Care of the Teeth During Pregnancy"; "Oral Focal Infection in Relation to Systemic Disease" and "The X-ray in Dental Jurisprudence."

Friday afternoon's program was a program of specialists, participated in by Dr. S. G. Warden on "Classification of Pyorrhea"; Dr. Paul White, Dental Corps U. S. Navy, Portsmouth, Va., "Hospitalization and Treatment of Dental Patients"; clinic on Nitrous Oxide Anesthesia and Analgesia—Heidbrink Technic, Drs. J. C. Clarke and E. G. Gates; "Crown and Bridge Technic" by Dr. H. E. Bonney.

The annual banquet with the business and professional men as hosts was held on Thursday evening and the annual reception concluded the session's activities on Friday evening at the Phyllis Wheatley Garden.

As usual the Old Dominion annual meeting brought out every practitioner of its membership. Dr. H. P. Weedon of Lynchburg is president and Dr. L. A. Banks of Newport News is secretary. The program committee consisted of Drs. S. F. Coppage, A. N. Land and W. P. Coleman.

Race Dentist Called to Southern Hospital; Operates On Patient

APPALACHIA, Va., Aug. 26.—Dr. S. G. Bullock, prominent dentist of this city, is the first race man to operate on a patient in a white hospital in this section.

Dr. Bullock was called to the Masonic Hospital to operate on a white patient with a badly broken jaw. A previous attempt, made by white surgeons had failed, and two white professional men recommended that Dr. Bullock be called in. His operation proved highly successful.

Dr. Bullock is a graduate of Howard University and has been practicing here for the past four years.
